SKILLS

- PHP with Laravel Framework.
- Vue js, Inertia js, Livewire, Bootstrap, Tailwind CSS.
- SQL, MySQL, PostgreSQL.
- cPanel, CyberPanel, Git, GitHub, Linux OS, macOS.
- REST API, Postman.
- S3 Storage, integration with third-party packages, and the ability to develop custom packages.
- Experience with Codecanyon marketplace product development.

RAYHAN ALI

SOFTWARE DEVELOPER

WORK EXPERIENCE

SOFTWARE ENGINEER

July 7, 2025 – Present

OnestTech, Banani, Dhaka

Trusted HRM (CodeCanyon Approved)

Laravel | Blade | REST API

Contributed to the development of a commercial Human Resource Management (HRM) system built with Laravel, designed for enterprise-level workforce management. Played a key role in backend development, business logic implementation, and RESTful API development to support seamless mobile application integration. Implemented and optimized multiple core HR modules including:

- Payroll
- Project Management
- Employee 360° Performance
- Discord Channel Integration
- Attendance & Device Sync
- Employee Directory
- Multi-Language System
- Support Ticket & Live Chat
- Database backup system

Involved in backend architecture, secure API development, and production deployment.

AI-Powered News Script Platforms (CodeCanyon Approved)

Laravel | REST API | AI Integration

Led the development of an AI-powered news publishing platform built with Laravel, designed for automated content management and multi-platform news distribution. As the Project Lead, directed module architecture, AI feature integration, and overall backend development. Implemented intelligent automation features and scalable content modules to enhance newsroom efficiency and digital media management.

Developed and managed key modules, including:

- AI Auto Language-wise Translator
- News Archive System
- E-Paper Management
- Instagram News Feed Integration
- Automated News Scraper
- Media Gallery System
- Advertisement Management System

Oversaw backend architecture, AI model integration, API development, and production deployment while ensuring performance optimization and scalable system design.

SOFT SKILLS

- Team Coordination.
- Backend Architecture Thinking.
- Problem-Solving.
- Fast Learner & Self-Motivated
- Time Management & Deadline-Oriented
- Client Requirement Understanding

EDUCATION

B.SC IN CSE

European University of Bangladesh
2025 - Present

DIPLOMA IN CSE

Bangladesh Polytechnic Institute
2018 - 2022

CERTIFICATIONS

BASIS-SEIP (BITM)

PHP with Laravel Framework
Sep 2022 - Dec 2022

OSTAD LIMITED

Full Stack Web Development
Nov 2024 - Apr 2025

BOHUBRIHI

PHP with Laravel Framework
Jan 2021 - Mar 2021

LandLord (CodeCanyon Approved)

Laravel | Blade | Payment Gateway Integration

Contributed to the development of a feature-rich Property Management Software built with Laravel, designed to streamline tenant, lease, rent, and sales operations. Played a key role in implementing AI-driven search functionality, payment integrations, and automated financial workflows to enhance system efficiency and user experience.

Developed and implemented major modules, including:

- AI-Based Natural Language Property Search (Plain text to SQL conversion)
- Multiple Payment Gateway Integrations
- Tenant Rent, Sale & Lease Management
- Automated Invoice Generation System
- Automated Agreement Generation
- Bill Payment & Reminder System
- Add-ons Installation & Module Management

Worked on backend logic, financial process automation, secure payment handling, and scalable module architecture to ensure reliable and production-ready deployment.

BACKEND DEVELOPER

Oct 1, 2023 – Apr 30, 2024

DR. Myatt Academy, Canada (Remote)

LMS System

Laravel | React.js | REST API

Contributed as a Remote Backend Developer in the development of a modern Learning Management System (LMS) designed to deliver a seamless digital learning experience. Worked on backend architecture, API development, and core feature implementation for both student and teacher platforms.

Developed and maintained key modules, including:

- Student & Teacher Panel
- Course Purchase & Payment System
- Drawing on PDF Feature
- MCQ Examination System

Designed scalable backend logic with Laravel, developed RESTful APIs for React.js integration, and collaborated to improve platform performance and features.
